

CITY OF ARANSAS PASS

AGENDA MEMORANDUM
City Council Meeting of July 2, 2018

Date: July 2, 2018

To: Mayor and City Council

From: Gary Edwards, City Manager

Title: Consider And Act On Approving Amendment No. 1 To The Agreement with LNV Engineers for Pompano Street Drainage Repairs

PURPOSE: Authorize the design work for improvements and repairs to the bulkhead area and related street work on Pompano Drive. This work will include preparing the specifications and paperwork for the construction RFP process.

BACKGROUND AND FINDINGS: For the past several years, the City has done work at this site and have made promises to repair. But for various, but understandable reasons, the repairs have not yet occurred. We are now to the point where a large part of city road is endangered. Following a heavy rain, that portion of the road is washed out and is literally suspended in the air with no base of support. This proposed project will not only address the road problem, but it will solve the cause of the problem: bulkhead and drainage issues. During a recent City Council work session the County advised the City Manager to begin addressing the problem.

EMERGENCY/NON-EMERGENCY: Would not consider this an emergency, but would consider this proposed project urgent.

FINANCIAL IMPACT: The cost for this design work is \$3,000. However, the cost estimate for the related construction work is \$48,000. You are only authorizing the design work. The related construction work will come to you at a later date.

RECOMMENDATION: The City Manager is recommending approval

LIST OF SUPPORTING DOCUMENTS: Agreement with LNV
