ACTIVITIES FOR QUARTER

This narrative and attached Exhibit A provide details on the City's quarterly investing activities. The schedule provides the economic earnings of funds invested.

The bank must secure ("collateralize") all City funds over \$250,000 by pledging certain of its own assets for the City and have such held by an independent third party custodian, the Federal Reserve Bank. The custodian sends evidence of this to the City monthly. The following summarizes collateralization activity as of the end of the quarter:

<u>Checking Accounts Less: FDIC Coverage</u>	<u>Collateral Market Value</u>	<u>Percent Collateralized</u>
\$ 1,044,886	\$5,233,755	501%

The City's investment policy and contract with the bank requires a minimum of 102% on such balances.

TexPool: Earnings on the City's funds totaled \$820 or 0.10% annualized yield for this portion of the portfolio. During the quarter, TexPool shares were valued at \$1 per share. Investments in TexPool are not guaranteed or insured.

Texas Class: Earnings on the City's funds totaled \$863 or 0.14% annualized yield for this portion of the portfolio. During the quarter, Texas Class shares were valued at \$1 per share. Investments in Texas Class are not guaranteed or insured.

This report complies with Chapter 2256 of the Texas Government Code ("Public Funds Investment Act"). All investment strategies are consistent with those outlined in the District's Investment Policy.
